

LIVE LICE

FRYSC/Counselor/School Nurse (per Principal designee) contacts parent/guardian to discuss:

1. Identification of head lice
2. Barriers to head lice treatment
3. Criteria for re-admittance to school
4. Consequences for failure to treat head lice

FRYSC/Counselor/School Nurse (per Principal designee):

1. Sends Exposure to Head Lice and/or Nits Notice to ALL students in child's class
2. Checks entire class and siblings for head lice
3. Follows Steps to Eliminate Nits and Lice in the Classroom

Student:

1. Can return to class awaiting parent/guardian arrival
2. Goes home via usual mode of transportation if parent/guardian does not arrive by school dismissal
3. Takes Exclusion from School for Head Lice letter and Head Lice Advice Packet home

Student returns to school with parent/guardian for recheck (If student returns to school with statement from healthcare provider JCPS personnel cannot recheck for 5 school days)

If child is free of lice and nits no action needed, **occurrence ends.**

If child has nits only, follow Nits only pathway.

NO
