PROGRAM DESCRIPTION:

According to Dr. Short, one of the authors, "The Essential Question is the driver for each unit in Edge. It sets a theme for the readings and engages the students in higher-order thinking. Without a right or wrong answer, students can linger over their response, discuss possibilities, write down their ideas, change or strengthen their opinions as they gain new information and insights from the readings which touch the topic from various angles. The pairing of a main selection with a related adjunct also bolsters the students' language development, as a theme is woven across texts and vocabulary is different contexts." The course will present a wide range of reading experiences with print and non-print materials that have literary, informational, persuasive, and practical purposes.
