In 100 words or less, briefly describe the mission and vision of the proposed school	The vision of LYCEE of Louisville is to equip students of color with the knowledge, skills, and dispositions that they need in order to master (80%) reading, writing, mathematics, and communication skills using a culturally responsive curriculum and culturally diverse children's literature and materials. The goal is to develop academic competence in each and every child. This vision will be actualized by having small class sizes, providing foreign language learning, and using the Comer Model for schools that encourages strong family and community engagement.
