

I Speak Card (Parent Explanation)

The purpose of the ***I Speak*** card is to aid you in obtaining a trained interpreter for immediate assistance. It identifies your native language and notifies the school that an interpreter is needed. It also explains how the school may access interpretation services. The district will provide you with an ***I Speak*** card at the time of enrollment or simply ask school personnel to give you one.

When visiting your child's school in person or when calling, school personnel may say "Wait for language support" in English. This indicates that the school understands the need for language assistance, and is working to get a certified interpreter to help.
